

General Statement

Global Quality Policy

Colorcon, Inc. provides highly specialized products and services to the pharmaceutical and allied industries on a worldwide basis. The objective of the company is to meet customer requirements by providing products, services and associated technical expertise that conform to contractual and prevailing regulatory requirements using qualified, trained and experienced personnel.

In order to achieve this objective, Colorcon, Inc. established and maintains effective, efficient quality policies that are implemented in all locations where the company operates. Working together with both global and local management functions, the global quality assurance group operates a system of procedures and change controls, which maintain a worldwide consistent approach to quality that also reflects local requirements. These policies ensure that our customers receive a consistent level of quality service independent of where the business relationship exists.

Colorcon, Inc. quality policies are designed to support continual quality improvement and compliance with Good Manufacturing Practices (GMPs) relevant to the nature of our business.

Craig E. Palumbo
Vice President, Global Operations

Kevin J. McGlue
Director, Global Quality Assurance
