

OPADRY[®] SGR

Rapid Sugar Film Coating System

Speed and Simplicity for a Sweet Finish

From Core to Coating, Your Supplier of Choice

Apply Science and Automation to the Art of Sugar Coating

Opadry® SGR is a high gloss, aqueous sugar film coating system that connects the art of conventional sugar coating with the science and automation of film coating. The result is improved quality and reproducibility, with a high gloss finish delivered in a significantly shorter time than traditional sugar coating.

3-Step, Fully Formulated Coating System

- **Bulk** to provide a well-rounded appearance without the need for an organic seal-coat
- **Color** to enhance appeal and deliver brand differentiation
- **Clear** to create a polished, high gloss surface finish

Totally Aqueous Process

- Easy coating preparation, ready in 45 minutes, avoiding heat and organic solvents
- Saves time and reduces energy consumption
- Suitable for use with fully perforated or conventional coating pans*
- All ingredients in Opadry SGR are USP-NF, EP & JP compliant

Speed and Simplicity

- Use of existing equipment eliminates need for further capital investment
- Automated process provides recordable control and reproducible results
- Streamlined application eliminates tray drying, and cuts process time from days to hours
- Fully formulated color coat ensures color reproducibility

*Conventional pans must be outfitted with spray equipment

Deliver High Performance Products - with Colorcon

Choose Colorcon, leader in pharmaceutical solid oral dose solutions, as a formulation partner of choice in every phase of your product development.

Film Coatings:

- Optimized formulations specifically for your application and regulatory needs including customized colors and color matching
- Innovative products for mechanical integrity, gloss, pearlescence and environmental protection
- Brand enhancement concepts, consulting and services to build a strong brand image and stand out from the competition.

Formulation Technologies:

- Full range of functional excipients
- Technologies for development and production of delayed/enteric release and extended/controlled release tablets and multiparticulates
- HyperStart® service and extensive applications data to provide starting formulations to save you development time and cost
- Extensive formulation know-how and technical support to achieve the exact drug release profile desired
