

**No-Tox<sup>®</sup> STAMP PAD INKS***NT19  
(10/14)*

**General Description:** A variety of No-Tox ink systems are available for both conventional stamp-pad or cartridge-type flexographic use, where the ink will be in direct contact with food, pharmaceutical or medical products.

**Suggested Uses:** All types of code/dating and similar applications. Can also be used for children's games, fingerprint sets and other creative applications.

**Stocks:** All types of uncoated and coated papers, TYVEK<sup>®</sup> and other porous stocks as well as a wide variety of non-porous plastic films and sheets, such as treated polyethylene, polypropylene, PET, vinyl, polyurethane and polycarbonates.

**Color Availability:** Black, blue, yellow, and red. Other colors may be available depending upon the ink system and specific application.

**Shelf Life:** Minimum one year in unopened containers.

**FDA Acceptability\*:** All components used in No-Tox Inks are sanctioned by the FDA and USDA as acceptable for direct food contact.

**Note:** Because of the wide variety of substrates and applications, contact our Technical Service Department with full details of the intended application so that appropriate ink formulations can be determined.

\*Note: FDA acceptability is based on the ink as supplied. Therefore, no materials should be added other than those indicated in this bulletin unless specifically recommended by Colorcon.

For more information, contact your Colorcon representative or call 1-800-724-0624
