

# Just ASC™ Annual Service Check

## Objectives

A proactive, targeted and joint programme partnering with senior level people to deliver clearly defined goals. Oriented towards our customers' key objectives:

- Lower total cost of product ownership
- Continuous or lean improvement
- Operational excellence—productivity improvement
- Bring positive contribution to your products

## Modules

Value stream applies to all manufacturing operations involving Colorcon products and technologies and can be tailored to evaluate one or multiple areas.

### Pre-processing Efficiency

### Manufacturing Excellence

# Value Creation

Run your process at maximum performance and minimize costly downtime.

## PRE-PROCESSING EFFICIENCY

Reduce inventory burden

Utilize most effective price breaks

Reduce number of batches / QC testing

Customised pack fill— reduce dispensing time and improve productivity in your plant

## MANUFACTURING EXCELLENCE

Increase coating capacity, without investment need to increase plant footprint or equipment

Comprehensive review of coating parameters to maximize efficiency and reduce operating cost

Avoid issues that could lead to unwanted tablet defects, failures or overage

Unlock capacity by reducing cleaning downtime & improve operators' safety with Opticlenz™

**A unique value creation service designed to optimise how our customers order, receive, release and use products from Colorcon.**

*Achieve peak performance for your process, people, and products, with an annual overview of your production activity and tips for flawless coating.*
