

Sureteric® is a complete aqueous system designed to meet the delayed release coating needs of solid dosage forms. This unique product is a specially blended combination of PVAP (polyvinyl acetate phthalate), plasticizers and other processing ingredients formulated to provide consistent, reproducible delayed release profiles. Sureteric coatings will withstand gastric fluids and the rigors of handling, packaging, printing and storage while exhibiting consistent delayed release profiles.

Key Characteristics

- Totally aqueous system
- Complete, optimized formulation
- Excellent film forming properties
- Easy to prepare, use and clean up

Applications

- Tablets and granules
- Hard and soft gelatin capsules

Packaging

- Sureteric is packaged in a 21 gallon fiber drum with double polyethylene bag liners and desiccant between bags. (In EMEA, the pack size is 15kgs in a carton)

Recommended Storage Conditions

- Seal both liners tightly
- Keep at 15-30 °C (59-86F) and up to 65%RH.

Re-evaluation Period (Warranty)

- 12 months from date of manufacture
