

# Opaglos®

Confectionery Sealants and Polishes

Opaglos® is a unique and versatile product line of sealants, polishes, and glazes. A variety of formulations are available in both the GS-2 and GO-8 series to meet your specific requirements.

## Opaglos GS-2 Series

Can be used as an effective sealant, moisture barrier, confectioner's glaze, or polish for panned confectionery pieces.

### *Features and Benefits*

- Ready-to-use out of the bottle.
- Faster drying times and reduced tack.
- Clean, deep shine in 1-2 applications.
- One-step polish and sealant solution available, incorporating wax along with shellac.
- Suitable for pumping and can be adapted for use in continuous spray systems.

### *Available Formats*

- Shellac and solvent blend.
- Solvent and wax blend.
- Shellac, solvent, and wax blend.

### *Usage*

For optimal results, use 2-4 fluid ounces of Opaglos per 100 pounds of finished product.

## Opaglos GO-8 Series

Available as a pre-coat sealant or an oil and wax-based polish. It can be used to inhibit both moisture and fat migration in a variety of applications.

### *Features and Benefits*

- Ready-to-use out of the bottle.
- Formulated to maintain low viscosity, while delivering a high wax content.
- Label friendly anti-stick agent.
- Suitable for pumping and can be adapted for use in continuous spray systems.

### *Available Formats*

- Oil and wax blend.
- Aqueous mix of gum.

### *Usage*

For optimal results, use 1.5 fluid ounces per 100 pounds of product. Individual usage may vary depending on the size of the coating pan, method of application, (spray or ladle), and the amount and type of product being pre-coated or polished.

Contact Colorcon's Food & Confectionery Technical Services department to request a sample of Opaglos or discuss your specific application.
